PAY AT MOST	EXPECTED PROFIT	WORST CASE
AED 236,000	**AED 16,000**	**-AED 9,000**

WHY

- Buy at AED 230,000, resell privately at about AED 250,000 in 4 to 8 weeks. After about AED 4,200 costs you keep about AED 16,000 (7%).
- Risk: a forced sale to a dealer means -AED 9,000; a hidden accident means -AED 36,000. The checks below remove most of that risk before you pay.
- Japanese spec has fewer buyers than GCC, and each month you hold it costs about AED 2,600. Price it right from day one.
- Exporting it does not pay; resell in the UAE.

BEFORE YOU PAY

- History: RTA history certificate, accident report and police status on CC 53874 show no accidents, mortgage or fines.
- Inspection (about AED 700): paint depth through the film, E-Active Body Control test, full code scan.
- Papers: Japan export certificate and UAE customs papers confirm 41,000 km. Walk away if any check fails.

PLATE AND CHASSIS CHECK

- Photo matches the description (matte white film, AMG Line, 2020, no visible damage). Plate Dubai CC 53874, read from the photo. Status, accidents and mortgage are not verified yet: the portals need the owner's UAE PASS and the chassis number.

AGENTS

- Market agent and plate agent exchanged 4 messages; plate agent: partial; final verdict agreed.
